Mrs. H. C. Swartzlander Sr. Passes in Calgary

Mrs. H. C. Swartzlander, Sr., a former resident of Oyen, died at her home in Calgary after a brief illness, on Sunday, July 5. Funeral services were conducted on Tuesday morning by Dr. George A. Dickson and interment followed at the Burnside cemetery.

Mrs. Swartzlander died in her 73rd year. She was predeceased by her husband and one son and is survived by two sons, Dr. H. C. Swartzlander of Calgary and Joseph R. of Lincoln, Neb., and one daughter, Mrs. Charles Nelson, of Calgary.

EXCEL NEWS

Six cars carried Excelites to the river last Friday.

Excel U.F.A. and U.F.W.A. held a picnic Saturday, July 4, in J. R. Anderson's grove, with a record crowd in attendance. Several soft ball games were played during the afternoon and after a picnic supper Lorne Proudfoot M.L.A., addressed the gathering and was given an attentive hearing. Thanks are due to Mr. for his work in preparing the grove for the event.

Oyen School Promotion List

Sr. Grade II to Grade III
Ross Acheson 83, Beth Gibson 82.7, Mary Gibson 82.7, Rita Cassidy 82.7, Joyce McLaren 82.5. (The foregoing pupils passed with honors). Rose Erickson 77.8, Dale Langmuir 77.8, Rita Wendling 77.7, Robert Morrell 77.1, Betty Gage 73.8, Florence Mahaffey 73.5, Ian McKay 71.5, Myrtle Duffy 70, Baron Gage 68.5, Evelyn Thygesen 69.2, recommended. George Lees 64, recommended.

Jr. Grade II to Sr. Grade II
John Miller 78.1, Kenneth Munroe 76.3, Pearl Morrell 76, Gerald Peterson 74.3, Leo Wendling 67.5, Daniel Scrivens 62.4, Larry Thygesen 53.1

Sr. Grade I to Jr. Grade II
Promoted at Easter, Christine Lees, June Shepherd.

Kathleen Kelly, Margaret Belle Lees, Stanley Krewski, William Neid (all honors); Margaret Bradford, Elegg Cassidy, Vernon Funnell, Leonard Smale Freddie Pouchuk.

Jr. Grade I to Sr. Grade I
Ursula Robinson, John Robinson, Everett Thygesen.
A. C. Robinson, Teacher.

Grade V to Grade VI

Elizabeth "Betty" Martin, Mel Lowry 73.8, Annette Audibert 71.4, Ethel Johnson 70.9, Donald McKay 70.3, Robert Neid 70.2, Hilda Wendling 69, Arthur Robinson 68.3, Ruth Kennedy 67.9, Forsyth Pratt 67, Peter Peterson 67, Jean Wade 66.5, recommended; James Stewart 64, Clare Wendling 63.5 recommended; Walter Krewski 63, Ernest Thygesen 60.8.

Grade IV to Grade V

Roger Scrivens 70.7, Annie Cassidy 69.3, Ruth Love 63.2, recommended, Peter Kornichenko 63, James Stafford 62, Thomas Lees 61.6, Howard Kennedy 57.3, recommended; Fred Robinson 57.5, recommended.

Grade III to Grade IV

Raymond Langmuir 70, Donald Scott 78.6, Frank Krewski 77.3, Anna Marie Kelly 71, Le Roy Mahaffey 70, Zoe Thygesen 63.6, Doris Trewin 62.1, recommended; Edna Pratt 60.4, recommended; Harold Peterson 53, recommended.

A. M. Todd, Teacher.

Grade VIII to Grade IX

Evelyn White 78.4, Phyllis Lowe 75, John Pokojowy 73, Christine Kerr 70.6, Jack Snyder 70.2, Minnie Thygesen 67.4, Helen Love 65.2, Dorothy Brown 61.2, Harold Keswan 60, Stanley Nann 59.8, Beth Whitlock 59.6, Marjorie Holloway 58, Howard Balaam 57.2, Esther Mahaffey 53.6, W. O'Neal 53, James Lees 51.6, Ethel Mahaffey 50.

Grade VII to Grade VIII

Wilda Caswell 77.9, Orton Caswell 72.7, Jean Lees 70.8, William Erskine 69.1, Ernest Trewin 67.4, Violet Love 65.1 recommended, Jack Kornichenko 58.7, recommended.

Grade VI to Grade VII

Patricia Scott 77.3, Warren (Continued on page 2)

MILLER'S July Items

Prices Good July 4 to July 10

Pink Salmon, halves 09

CONFERENCE OF POWERS MAY BE ARRANGED SOON

London, England.—The British Government intervened dramatically in discussions of President Hoover's moratorium plan by announcing its "willingness" to hold a conference of the powers chiefly concerned if the negotiations at Paris should break down.

The Associated Press learned that Great Britain has advised France that the French proposal regarding the Hoover plan constitutes an entire alteration of the Young plan in regard to the question of guarantees, and it is understood the proposals are unacceptable to Great Britain.

Officials would not confirm this information. British official anxiety concerning the trend of events, and its opinion that the matter is one of extreme urgency, are reflected in a brief communique which announced the government's decision.

"Should no early solution be found," the communique said, "the government have expressed their willingness—in order that an agreement should be reached with a minimum of delay—to take a meeting of the powers chiefly concerned at an early date."

Shipments of Frozen Fruit Are Increasing

New Process For Packing Adopted By Vancouver Island Fruit Growers

Victoria, B.C.—Frozen strawberries and other small fruits will be shipped from Vancouver Island to the United Kingdom in steadily increasing quantities, following the adoption of a new process for packing, according to Captain F. Livermore, manager of the Spanish Fruit Growers' Association, who expects that the plan will absorb a large part of the berry surplus this year.

A company has been capitalized at \$75,000, most of the stockholders being berry growers. The new company is expected to handle at least 30 tons of strawberries and loganberries this season and will seek to establish a market in London, England, where samples recently forwarded attracted much attention.

Leads In Disarmament

Britain Has Now Gone The Limit Says Premier MacDonald

London, England.—"We have gone pretty nearly to the limit," said Prime Minister J. Ramsay MacDonald a trifle wearily in the House of Commons, as he took the navy, army and air services, comparing the British figures with those of other great powers.

"The naval appropriations for other countries have increased in much the same proportion as ours has decreased," observed the prime minister, speaking on the subject.

As he closed his disquieting comparisons Mr. MacDonald pleaded: "I would appeal to the nations interested in peace and disarmament to admit that one nation cannot by its own example bring about disarmament—that it is the duty of every one to join together and make further disarmament possible by international agreement."

Princess Pats To Return

Ottawa, Ont.—Sufficient members of the permanent force will remain at Camp Hughes to conduct the various instructional classes, Hon. D. M. Sutherland, Minister of National Defence, has stated. The rest of the artillery and the Princess Patricia's are being brought back to Winnipeg since it was thought better to have the troops stationed in that city.

Joan Of Arc Memorial

Rouen, France.—Lady Douglas Haig has just presented to Monsieur de la Villerbe, archbishop of Rouen, primate of Normandy, a purse of \$2,000 collected among English people to help towards the memorial chapel to Joan of Arc, to be erected on the market place of this city.

R.C.M.P. Changes

Winnipeg, Man.—Recently appointed to the Manitoba and western Ontario command, Royal Canadian Mounted Police, superintendent Richard Field arrived here from Dawson, Y.T. to succeed Capt. A.B. Altard, who was transferred to the Yukon post.

Palestine's population has just been estimated at 900,000.

Five Killed In Plane Crash

Opening Of Air Payment At Hamilton Marked With Tragedy

Hamilton, Ont.—Five persons were killed to death, in a Traveler motor plane here when the pilot, attempting to avert to avoid a crowded field, lost control of his machine as the fabric on the left wing ripped and sent the plane flying over on its back.

The dead: Captain Robert Sterling, of Montreal, pilot of the plane.

Harold Raine, general superintendent of the Canadian Press, Toronto.

H. J. Maher, Jr., owner of the plane.

Charles L. Daly, Jr., Toronto parachute jumper.

Alfred Rogers, of Hamilton, Ont.

The plane had just participated in a "rat chase" over the city in an effort to draw a crowd to the airport, where the pageant was to have been held. The plane was damaged, but on account of the crowded field apparently changed his mind and attempted to land on the roof of the hotel, where it was up, but the fabric of the machine was ripped from the left wing, and the plane crashed about 150 feet to the ground.

The plane was a mass of debris and broken parts were scattered for yards around. All except Rogers and Maher were taken to the hospital, where he died in an ambulance on route to the hospital.

There was to have been a brilliant opening of a trans-Canada air line to help make Canada more "air-minded" was marked by tragedy.

The plane that crashed was one of a numerous fleet that was to have been back after a two-day air carnival at Hamilton. Captain Sterling would have piloted it throughout the tour.

Court Gives Judgment On Radio Broadcasting

Decision That Control Belongs To Dominion Parliament Not

Ottawa, Ont.—Control of radio broadcasting in Canada belongs to the Dominion parliament and not to the provincial legislatures. This was the decision of a majority of the judges of the Supreme Court of Canada, handed down in the radio reference.

The court was not unanimous. Chief Justice Anglin, Mr. Justice Beetz and Mr. Justice Newcombe ruled in favor of the Dominion's claim. The majority opinion was based on the ground, as the chief justice put it, that the Dominion has the right to regulate the radio.

In dissenting judgments, Mr. Justice Rinfret and Mr. Justice Laundie held the jurisdiction of the Dominion was not unlimited and took the stand that the provinces have the right to a measure of control, particularly over radio receiving operation.

The case was one of the most important heard before the supreme court in some time and turned on the construction of the British North America Act. It was brought about by the action of the Province of Quebec which contested the Dominion's claim to complete legislative control over radio.

Injured Aviatix Goes Home

Ruth Nichols Made Journey In Ambulance Airplane

Armonk, N.Y.—Ruth Nichols, Rye aviatix, whose proposed trans-Atlantic flight was interrupted by a crash in which she was injured at Saint John, N.B., returned home in an ambulance airplane piloted by Clarence Chamberlain.

Her representatives said she expected to be ready to start her interrupted trans-Atlantic flight as soon as she was able to stand, or to a month at six weeks.

United States Warns France

Germany Will Declare Moratorium If Hoover Plans Fail

Washington, D.C.—The United States has warned France, that failure of President Hoover's moratorium plan would unquestionably result in Germany's declaring a moratorium of reparations under the Young plan. The acting secretary of the state department said that the French government had received pleasantly the United States' formal re-expression of its position on a debt moratorium.

Court-Martial For Aviator

Chateaufort, France.—The daredevil military aviator Sergeant Herve Martin, will be court-martialed on serious charges for his responsibility in the accidental killing of two persons and injuries to two others. He was flying low above an automobile when the undercarriage of the plane struck the occupants, decapitating one of them.

British Team For Canada

Biffemen From Old Country To Enter Competition At Ottawa

London, England.—Commander Sir Lionel Fletcher, R.N.R., retired, has been appointed captain of the British team which under the auspices of the National Rifle Association, has accepted the invitation of the Dominion of Canada Rifle Association to shoot in matches in Ottawa under Kolaire and Mackinnon conditions as known at Bingley. The team will leave England by the Canadair Anconia on July 24, arriving in Montreal on August 2, and will arrive again, travelling in U.S. Airline, by about August 29.

EXPLAINS REASON FOR APPENDIX TO STAMP REPORT

Ottawa, Ont.—How the offending Appendix XII, attached to the report of the Stamp Commission which enquired into trading in grain futures, came to be added to the report, was explained in the House of Commons when the prime minister tabled a written statement to a series of questions asked by Hon. W. R. Motherwell (Lib. Melville). The appendix takes the form of a short file by the Winnipeg No. 2 Northern post by the pool higher than those which could have been secured in open market trading.

Explaining the events which led up to publication of the report, Mr. Bennett's reply says:

"Mr. Commissioner Evans and the secretary of the commission (L. E. Pearson, first secretary of the Department of External Affairs), appeared before the prime minister on Saturday, May 2, with a typewritten copy of the report. The prime minister suggested to Mr. Evans and Mr. Pearson that the report should be printed, if possible, in time to be mailed to the chairman by the New York following Wednesday, May 6. Only those exhibits which had been selected by the chairman were printed as appendices to the report. Among them was the chart which became Appendix XII."

"Neither the prime minister nor the secretary of the commission had seen or checked the report or its appendices before they were sent to the king's printer. The commission was responsible for its report."

The main report was sent at once to the printing bureau on May 2. The appendices were sent when the proof of the main report had been printed.

"A total of 10,126 copies of the report minus Appendix XII, have been distributed."

"The appendix has been removed from all copies of the report in circulation from departments of the government, and those persons to whom the report, with Appendix XII, attached, has already been sent by the king's printer, has been communicated with requesting them to remove the appendix from it."

Complete Epochal World Flight

Post and Gatty Circle Globe In Less Than Nine Days

Roosevelt Field, L.I., Wiley Post and Harold Gatty completed a flight around the world at 7:47 1/2 (E.S.T.) July 1st, marking the 16,000-mile journey in less than nine days with 13 intermediate stops.

At 7:44 P.M. the white ship "Winona" shot at terrific speed of salmon-colored sunset and a crowd of approximately 2,000 broke into wild cheers.

Post, the one-eyed pilot, who had done all the flying on his journey around the world, shot the swiftest "plane over the crowd, banked steeply and made three leisurely circles of the field, selecting the best possible place for the landing.

Gatty and Post completed the world flight in eight days, 15 hours and 51 minutes. Their actual flying time in the air was only four days, ten hours and eight minutes.

As soon as the "plane stopped rolling, Gatty and Post climbed from the cabin, turned their plane over to a police guard, and entered an automobile which carried them half a mile across the field to the administration building.

As they left the automobile, friends and admirers of the fliers grabbed them and their "plane as it landed. Suddenly the plane's legs gave way and the ship became a bedlam with excitement, rattle, and numerous flat rights breaking out as police, with night sticks in their hands, attempted to force a way for the fliers.

MacNider Praised Herriage

Ottawa, Ont.—Back from a ten-day visit to Washington, Col. The Hon. Handford MacNider, United States minister to Canada, Monday, June 29, spoke in glowing terms of the impression made by Major W. D. Herriage, Canada's new minister to the United States. "Everybody was tremendously impressed with Major Herriage," Col. MacNider declared.

MacNider declared that the impression made by Major Herriage was so good that he was sure to be a great success in his new post.

Radio Policy

Quebec May Appeal To Privy Council On Question

Ottawa, Ont.—The finding of the majority of the Supreme Court of Canada in favor of exclusive jurisdiction of radio was gratifying to Hon. Alfred Durnan, Minister of Marine, whose department has charge of radio.

We did not think it advisable to outline a policy on radio broadcasting until we got the decision as to jurisdiction," said the minister. "I now rests with Premier Tachevaev when he will appeal to the privy council. If Quebec does not appeal we will take up the question as soon as the time limit for making an appeal has expired."

Canada's Sea Limit Fixed

Jurisdiction Of Customs Changed From Twelve Miles To Three

Ottawa, Ont.—A decision which sets aside that section of the Customs act giving Canadian revenue officers power to seize Canadian craft within the three-mile limit, was handed down by the supreme court of Canada in the action of Dunphy versus Croft.

The appeal was argued on behalf of the government by Captain Sylvester Dunphy, of North Sydney, by D. A. Cameron, K.C. The decision is a far-reaching one in that it restricts the jurisdiction of customs officers to the three-mile limit or territory within Canadian coastal waters.

The decision is a far-reaching one in that it restricts the jurisdiction of customs officers to the three-mile limit or territory within Canadian coastal waters.

A BIG DECLINE IN PRODUCTION OF WHEAT IS SEEN

Kansas City, Mo.—Arthur M. Hyde, secretary of agriculture, said in an interview here, that, in his judgment, the world-wide production of wheat during the coming season will be at least 350,000,000 bushels short of last season.

He said, included Russian wheat and took into account the probability that Canada, at most, would have only 225 million bushels this year, that Argentina, turning to wheat, would be 30 per cent. short in wheat acreage, and that Australia would have a reduced acreage of 40 per cent.

The secretary refused to comment on the course of wheat prices in the face of these figures, but said prices should react to the condition when it became generally known.

The secretary said he was informed by the Bureau of Agriculture Economics, that the Danube basin—great wheat country—was expected to carry over of only 7,000,000 bushels, compared with approximately 28,000,000 bushels on hand August 1, 1926.

New Taxation Now Operative

Stamps On All Cheques and Increased Postal Rate Started July 1

Ottawa, Ont.—A number of the taxation changes incorporated in the Budget, brought down by Rt. Hon. R. B. Bennett in his capacity of Minister of Finance, came into operation on July 1. Of these the one that has most widespread effect is the increase in postal rates.

Penny postage disappeared except only in respect of direct letters—that is, letters sent direct to the addressee in which they are mailed. An additional cent was imposed in the postage on "out-town" letters, that is, letters sent to any place other than the city, town or village in which they were mailed.

Provisions of the Income tax amendments, with the sole exception of the increase in the two per cent. rate on dividends, came into operative July 1.

The Hoover Proposals

May Be Regarded As Preliminary Step Toward Calling International Economic Conference

Dr. W. W. Swanston, noted economist, and adviser to Premier R. B. Bennett at the Imperial Conference last year, when interviewed recently concerning the effects of President Hoover's proposals to declare a moratorium for one year on all war debt payments, and their reaction on western Canada, stated that they were of fundamental value as aid in improving the demand for wheat and other farm products.

He was of the opinion, however, that Mr. Hoover's action could only be regarded as a preliminary step toward calling an international economic conference at London for the immediate dealing with the problems of currency, credits and the gold standard. He stated that it was significant that Mr. Hoover referred to the creation of a surplus reserve of gold in the United States under the present economic conditions.

Dr. Swanston believed that the Canadian government might use its influence with the Imperial conference for the calling of such a conference in order that the present impenetrable credit and debt burden resting upon Europe might be eliminated, and thus relieve the pressure upon the people.

As a first step, he suggested that the opinions of Sir Montague Norman, of the Bank of England, and of Mr. McLaughlin, of the Bank of International Settlements, should be obtained.

"The promises of the federal government to pay a five-cent bonus on export wheat under some possible arrangements with the railways is good as far as it goes, but is wholly inadequate to meet the crisis in western agriculture," emphatically declared Dr. Swanston. "In any event, the bonus should be paid directly on wheat delivered at country elevators, and the scheme should be divorced from any readjustment of railway rates."

"Even more important," he went on, "is the necessity of paying one dollar per acre on all wheat sown on the dried out areas and where there will be no harvest. Otherwise the farmer reaping a crop, and who is heavily indebted, first by being fortunate in harvesting a crop, and secondly by being paid a bonus."

Dr. Swanston urged that this direct measure of relief should be paid for the income through the sale of the resources of the municipalities as this would both simplify the method of payment and assure the farmer at present struggling with debts, of getting the money at once.

The prime minister undoubtedly had a firm grasp of the situation, declared Dr. Swanston, and that other remedial measures to deal with unemployment would be taken. He urged, however, that his proposals for direct relief to the farmers in the stricken districts should be incorporated in the federal programme, and felt certain that such an announcement by the government would, if made in the near future, go far in restoring confidence in the west.

Prefer Canadian Honey Combs
Comb honey foundations and comb honey boxes are in considerable demand in the West of England and the South Midlands, writes Douglas B. Cole, Canadian Trade Commissioner at Bristol, Canadian supplies are considered of high quality and compare very favorably with those of other countries as well as those of local manufacture.

Might Prove a Boomerang
A Welland minister at Hamilton conference recommended that Christian people forego ice cream and candy and give the money to the use of the unemployed. That idea may not appeal greatly to those now employed in producing ice cream and confectionery, a value of which is about \$30,000,000 a year in Canada.

"Will you cease to follow me about?"
"It is nothing, I am only keeping in the shade!"—11420, Florence.

Eliminate Fear From Cancer

Disease Can Usually Be Successfully Treated in the Early Stages

"Cancer can, in the large number of cases, be successfully treated providing it is caught in its early stages," declared Dr. Douglas Quick, Memorial Hospital, New York City, during an open session of the Canadian Medical Association Convention at Vancouver.

"I don't very much, however, if this generation will see the cause of cancer removed," he added, "because the energy of those interested is not at that direction."

"If we could only dispel the idea that cancer is the one dreaded disease—if we could eliminate the fear from a person's head so that they would seek treatment, we could accomplish more."

The doctor said statistics showed that only 25 per cent. of patients seeking advice do so in its early stage.

Periodical medical examination of all persons over the age of 35 was advocated by Hon. F. D. Munroe, minister of Saskatchewan. The public health and medical organizations have been largely responsible for a big decrease in disease in this country, said Dr. Munroe. Disease is a problem of the municipal, provincial and federal governments, but it is a greater problem of the individual, he stated.

"In the treatment of cancer, teamwork is essential," the doctor said. "The problem of cancer is not a common job. It may require the family doctor, the specialist, the nurse and the internist. Centralization and teamwork among the clinics is the main factor."

Found Sign Was Genuine

Man Proved Montreal Restaurant Keeper Meant What He Said

As an experiment a Montreal restaurant advertised, "All you can eat for 60 cents."

A man over six feet tall and weighing in the neighborhood of 250 pounds entered and settled himself for a considerable meal. The manager and staff soon realized they were in the presence of an expert gourmand, and gathered discreetly around, keeping an accurate account.

The official count was given out as follows:
Four fruit cocktails.
Eight veal cutlets and potatoes.
Eight loaf bread.
Five orders of French fried.
Five orders of ham and potatoes.
Two orders of roast beef.
Two orders of tomato salad.
Six ice creams.

Industrial Manitoba
The Industrial Development Board of Manitoba is in the process of covering the last five years, shows the following: 275 new industries; 259 plants expanded; 140 new lines added. Capital invested in Manitoba industries increased over \$68,000,000. Value of products increased \$22,657,500. There were 11,540 additional employees and \$15,451,000 more paid out in wages.

Trappers Have Good Success
Two trappers, J. Stark and G. DeLafayette, spent the winter and spring in the Barren Lands north-west of St. John's and Fond du Lac (where fur-bearing animals are supposed to be scarce) and emerged with 210 white fox skins.

A SCALE MODEL OF THE NEW GIANT CUNARD NOW UNDER CONSTRUCTION

The new Cunard liner, which is now under construction at Clydebank, Scotland, when completed will look like the 18-foot model pictured above floating in a testing tank which artificially produced wind and waves for rigid experimental purposes. This giant liner when finished will be the largest ship afloat with a gross tonnage of 73,000 shipbuilding, are being jealously guarded.

Price Is Great Landlord

Takes Personal Interest in Tenants Who Are Happy and Contented

A fact often overlooked is that the Prince of Wales is one of the largest landlords in the country. Tenants live happily along a stretch of country running into hundreds of miles—130,000 acres of it.

The Duchy of Cornwall includes every kind of agricultural land and every type of homestead from mansion to cottage, in Hertfordshire, Berkshire, Somerset, Dorset, Wiltshire, Devon, Cornwall, and the Shetlands. The Manor of Kensington, London, S.E. is, of course, also included.

The Prince has visited practically every portion of his domain, and one has only to call upon a few of the tenants to realize the very real affection with which he is regarded.

It is always the same—"When his Royal Highness comes to see us," the Prince's personal interest in his estate is shown in a score of ways. If he cannot visit every home himself he sees that some official of the estate does so at regular intervals. Reconditioning is going on all the time by the works department and independent builders.

The tin-mining industry of Cornwall is encouraged to greater development, such as the sinking of new shafts. Every new cottage or flat must have its bathroom, and if the tenants can find anything to complain with they seldom complain in vain.

A Belated Reward

Hamilton Physician To Receive Medal Won In 1885

Sixty-eight years ago, Dr. William Philip, of Hamilton, Ontario, won a medal for proficiency at Victoria College. Some weeks ago, Dr. Philip in a course of an address before the Medical Society of Niagara Falls, remarked that he had won the medal but the college was then too poor to afford to strike one and had never conferred it upon him.

Later it was learned that Victoria College governors considered the record, and discovered that it was as Dr. Philip said. A medal is being struck, and will be presented shortly.

Cartwright's Advice

At any rate, no modern statesman confronted with the difficulties of the farmers has had the hardihood to offer them the advice said to have been tendered on one notable occasion by Sir Richard Cartwright, who told a delegation of agriculturists that they should work harder and eat less.

Talkies will be produced in Persia.

Planting Of Forest Belts Suggested As A Possible Remedy

A correspondent has suggested that Saskatchewan might do itself a good turn by taking over strips of land running from north to south and planting trees and shrubs on them. It is possible the trees would provide timber and fuel at a later date, but the great gain, it is hoped, would result from a stopping of soil drifting.

These forest belts would be several miles wide to be effective and it might even be questioned if wide belts 20 or 30 miles apart would be sufficient to break the force of the wind. However, there is little doubt that these forest belts would be a great encouragement to general tree planting on the part of land owners so that in a lifetime the treeless parts of the province might be converted into parkland country.

The proposition should be investigated by forestry and crop experts and viewed as a "long haul" scheme to give greater stability to Saskatchewan agriculture. If some such plan were adopted men who happened to be without employment could be given a job by the state at a low wage and allowed to remain there until something better turned up.

Experience during the last 10 years has shown the perils of drought and a condition from which parts of the country have not been free even in seasons of normal moisture. If something is not done to overcome the problem, large areas of farm land may have to be abandoned.—Regina Leader-Post.

Butter Export Resumes

Volume Of Exports Of Butter Overseas Is Increasing Rapidly

The current market report of the Dominion Dairy and Cold Storage Branch gives information of significant interest to farmers and dairymen in the volume of exports of butter overseas. Last year during the export period, May 1 to June 7, Canada exported a total of 937 packages of butter; this year (1931) for the same period exports totalled 26,015 packages. Exports for one week ending June 6, totalled 14,672 packages all but 381 of which went to the British markets at London, Liverpool, Bristol, Cardiff, and Manchester. Evidently butter production in Canada has settled down to an export market which may in the long run prove a real benefit to Canadian farmers.

The life of a skyscraper is apt to be about 30 years, not because the building is worn out by that time, but because it makes way for a newer structure.

London Clocks Puzzle Experts

Formerly Reliable They Have Developed Strange Eccentricities

What is the matter with all the clocks in London?

Clocks which for years have had spotless reputations for accuracy have suddenly developed strange eccentricities.

The experts are puzzled, and are inclined to blame the weather. "Some of the clocks we regulate in the city have been decidedly erratic during the past few weeks," said a representative of a famous city firm of watchmakers. "We have also had many writ-what-comes-brought in to be regulated."

A Richmond clock and watch repairer said that he could not remember such a busy spring during the 30 years he had been in business.

"Almost every customer I have has sent me to regulate the household clocks during the past fortnight," he said.

"Grandfather clocks and small watches seem to be the chief offenders."

Caragana Wind Breaks

Seeds and Seedlings To Be Distributed Free To Farmers

Bricks and seedlings of caragana will be distributed free to farmers of the west for use as wind-breakers, it was announced by Hon. Robert W. Stewart, minister of agriculture, in a speech made at a meeting of the west of the west the only remaining green crop is that protected by field shelter hedges.

Advertisements by the federal department for caragana seed to be delivered to experimental farms or forestry stations will have been broadcast over the prairies. Fifty cents a pound is being paid.

The forestry stations expect to produce 100,000 seedlings per acre in 1931. The five Saskatchewan institutional farms will put in 60 acres of caragana seed and next year between 5,000,000 and 8,000,000 seedlings will be ready for distribution.

Ban On British Cattle

Foot and Mouth Disease Prohibits Shipments To Canada

As a consequence of outbreaks of foot and mouth disease among cattle in the British Isles, the Canadian department of agriculture has cancelled all permits for the importation of livestock from the old country as from June 20, excepting only shipments now actually embarked.

Where municipalities have no municipal funds or British Columbia will be relieved entirely from the cost of maintaining transition unemployed under a country new relief scheme adopted by the provincial government.

The province and the Dominion will divide about the total cost of maintaining all transients, as from and including Jan. 1931, Premier Tupper announced.

Where municipalities have to take care of unemployed who are not transients, but municipal residents, the Dominion government will pay a third of the cost, the province a third, the municipalities a third, the premier said.

Everything Up-To-Date

A storm-proof roof garden, talking pictures in every room at the new house of a land, potatoes that practically peel themselves, and a telephone-typewriter system that will make many guests feel that the place is haunted, are among the unique contrivances being installed in the new Waldorf-Astoria Hotel, nearing completion on Park Avenue, New York.

Poultry Outlook

A new factor in the poultry outlook at the present time, as reported by the Dominion Department of Agriculture, is the extent to which farmers in many parts of Canada are now buying six, eight and ten weeks old pullet chicks.

In Favor Of Two Languages

Dr. Saunders, Of Marquis Wheat Farm, Favors At Antwerp Association Meeting

An atmosphere of outspoken criticism pervaded sessions of the Canadian Authors' Association meeting in Toronto.

Wilson MacDonald, of Toronto, began by launching an attack upon university professors, literary critics, and the Canadian public in general for their indifference to Canadian literature.

Dr. C. E. Saunders, famous for his Marquis wheat, rebuked both English and French-Canadian authors for their blindness to each other's merits.

All Canadians should speak both languages, he contended. He regarded Ottawa as a most tolerant city; Toronto was not a tolerant city, nor were certain cities in Quebec. He pleaded for a closer understanding between the two races.

Mr. Camille Roy, of Laval, university speaker in French, outlined the growth of French-Canadian literary criticism since 1900. There were now two schools of writers in Quebec, he indicated, the nationalistic and the Canadian.

The first confined its attention to French Canada, while the second was interested in Canada as a whole. Agreeing with Wilson MacDonald, Mr. Roy said writers were wedged in a vice between the snobbery of the Canadians who worshipped European culture and the snobbery of Europeans who despised all things Canadian.

Robert Choquette supplemented Mr. Roy's remarks by suggesting that translations from French into English, so that the works of French Canadian writers would be accessible to all in the Dominion.

This fact, the five Saskatchewan institutional farms will put in 60 acres of caragana seed and next year between 5,000,000 and 8,000,000 seedlings will be ready for distribution.

Robert Wilson, novelist of Winnipeg, urged young writers to guard their copyright, and Madame A. P. Berthel, of Montreal, lauded activities of the association as a stimulus to creative authorship.

Has Only Military Accidents

Paris, Home Of Aviation, Has No Commercial Air Port

Although it may come as a surprise to most people, it must be admitted that Paris, the home of aviation, has no commercial air port. Ever since Lindbergh landed at Le Bourget in May, 1927, the world has taken it for granted that this aeronautics must be the most modern and the most accessible of any landing stage. As a matter of fact, it is a military aerodrome owned by the state, is six miles from Paris and is not very convenient for foreign visitors.

Although generously cluttered up with military machines, there is considerable freight and passenger traffic from the air port. At the present it is running at the rate of 200,000 parcels and 45,000 passengers a year. If this continues to increase it will be necessary to build a new terminal for the 20,000 to 25,000 passengers a day or to build an exclusively civil air port.

It is intimated that the Paris Municipal Council is in favour of turning Le Bourget into the most modern civil air port that can be built. In such an event an electric railway will be built right up to the aerodrome and a pneumatic tube laid down for the transport of mails.

Millions Of Trees

The Dominion Forestry Department at Sudbush, Sask., this year distributed about three million young trees to Saskatchewan farmers, for use in planting windbreaks, shelter belts and other purposes.

A movement has been launched in Scotland for earlier church services so that automobile owners may enjoy longer Sunday trips.

U.S. Puts Lid On Lottery

All Irish banks have agreed, at the request of the United States post office, to return all money or counterfeits received in the future from sweepstake subscribers in the United States. It was said that bank managers had been informed that unless they did this, letters addressed to them would be subject to delay and inspection.

Will You cease to follow me about?

"It is nothing, I am only keeping in the shade!"—11420, Florence.

SUNDAY SCHOOL LESSON

JULY 12

THE PREACHING OF THE APOSTLES

Golden Text: "We must obey God rather than men."—Acts 5:29.
Lesson: Acts 3:1 to 4:31; 1 Corinthians 13:1-25.
Devotional Reading: Romans 10:8-15.

Explanations and Comments

The Arrest Of Peter And John. 4:1-4.—Priests and Sadducees and the captain of the temple were troubled because Peter and John proclaimed the resurrection of Jesus Christ. The captain of the temple was the commander of the temple guard, and was himself a priest second in rank only to the high priest. The Sadducean party, to which the high priestly class at this time belonged, did not believe in the doctrine of a resurrection. Of course, it was especially galling to them to have the apostles teach the people that Jesus had risen from the dead. They arrested the apostles, but because it was too late for a trial that day they had them imprisoned for the night. The result of Peter's preaching, Luke now tells us, was that about five thousand men believed in Christ. No wonder the authorities were startled when men of Jerusalem who had cried "Crucify Him," were now convinced that the Crucified was their Messiah.

Peter's Boldness Before The Sanhedrin. 4:5-15.—On the morning of the people's chief priests and elders (representatives of the Sanhedrin) who was supreme in all matters affecting the Jewish law, were gathered to deal by the only penalty which they might not impose, Annas and Caiaphas, who were high priests, were present as a prisoner, Alexander and other great officials were present. The Sanhedrin sat in a semicircle and the priests and elders sat before them. The man whom Peter had healed was also there, as a kind of accessory to the "good deed." With what power, or in what name, have ye done this? The offering demanded.

John Peter, filled with the Holy Spirit and eager to use the chance thus given him, replied: "Ye rulers of the people, chief priests, and elders (representatives of the Sanhedrin), if we this day are brought here concerning a good deed done to an impotent man, by what means this man is healed, we know not. But we are forced to defend ourselves for this deed, which he has done in the sight of all, and to all the people of Israel. It is in the name of Jesus of Nazareth, whom ye crucified, whom God raised from the dead, and whom Him doth this man declare before you whole." Thus Peter answered their question and the sinners during the trial.

Ship's battles are answered immediately and accurately. Captain Battle, who is making his second voyage on the "Antonia" as a liner captain, has been twenty-four years service as a Cunard officer. He joined the company when he was twenty-six years old as Fourth Officer, on the "Carmania," leaving that vessel he was transferred to the "Lustiana" on which famous steamer he made his maiden voyage. After five voyages in this sister ship of the "Mauretania," he rejoined the "Carmania" as First Officer. At the outbreak of the Great War, Captain Battle was appointed naval officer of the "Carmania," in which capacity he witnessed the historic struggle between the German cruiser "Cap Trafalgar" and the "Carmania" in which the enemy ship was destroyed during one of the most famous naval actions of the war.

Captain Battle commanded the destroyer "TB 29" in the Mediterranean toward the end of the War, after which he rejoined the Cunard fleet as first officer on the "Pannonia." Subsequently he served as Chief Officer and Staff Captain of the "Agulhas" in which ship he has spent the last three years before being appointed to command the "Antonia." Captain Battle declares himself extremely glad to be able to sail into Montreal and looks forward enthusiastically to serving a number of years in the Canadian Service of the Cunard Line.

Praises St. Lawrence Route

Captain Of Cunard Liner Speaks Highly Of Efficient Aids To Navigation

The aids to navigation on the St. Lawrence River are the finest to be found in the world, according to Captain W. C. Battle, D.S.C., R.D., R.N.R., commander of the Cunard liner "Antonia."

"In making this assertion," said Captain Battle, "I feel I can do so without fear of contradiction, having served as a navigating officer on three Cunard World Cruises, and practically every other shorter cruise to various parts of the world I have yet to find anywhere such a splendid service at the disposal of shipping as is provided by the many efficient aids to navigation on this river. The co-operation received from radio stations particularly is extremely helpful."

Shopping Psychology

They are telling the true story at the Hotel Victoria, New York, of the enterprising Seventh Ave. shoe merchant, who, after failing to dispose of a bargain batch of shoes at \$15.00 a pair, ran a dollar-day sale offering them at \$6 a pair, with an extra pair given in for a dollar more, closing out his entire stock in less than three hours!

Inherited The Knack

An old lady noticed one of those men who go around jabbing a pointed stick into scraps of paper to gather them up. Stopping beside him she said, kindly: "Don't you find that work very tiring?"

"Not so very much," he replied. "You see I was born to it—my father used to harpoon whales."

The inventor of a new riveting machine claims it is noiseless. We hope he turns his talents next to peanut brittle and celery.

The average backseat driver complains against the poet's ideal.—"A perfect woman, nobly planned, to warn, to comfort and command."

"Good soil for growing things?"
"Quite good. This was one of last year's hollyhocks."—The Passing Show, London, England.

WORLD HAPPENINGS BRIEFLY TOLD

The will of Dr. Horace A. Bashore, a dentist of York, Pennsylvania, provides that all bills due him for dental work be cancelled.

During 1930 Canadians spent \$200,000,000 on alcoholic beverages and \$500,000,000 on cigarettes—more than the annual premiums on the entire amount of life insurance in Canada.

Alfred Aloysius "Trader" Horn, co-author of the book "Trader Horn," died in a hospital at Whitestable, Eng. land, after a brief illness. He was 73 years old.

The Vimy Ridge War Memorial will not be ready for unveiling before 1934 or 1935, Hon. D. M. Sutherland, Minister of National Defence, told the House of Commons.

Without any discussion a bill authorizing a loan of \$300,000 to the harbour commissioners of New Westminster, B.C., was given short reading in the House of Commons.

Gerald Egerton Williams, 29, who was shot down while flying over the German lines on the morning of Armistice Day, died at Bournemouth, England, of injuries sustained in an auto accident.

Mahatma Gandhi has been designated by the government to represent the Indian Nationalists on the federal structure committee of the second round table conference, which meets in London, England, September 5.

Recently appointed to the Manitoba and western Ontario command, Royal Canadian Mounted Police, superintendent Richard Field arrived at Winnipeg from Dawson, Y.T. He succeeds Supt. A. B. Allard, who was transferred to the Yukon post.

Glad, fifteen and a half miles south-west of Nelson, across the Kootenay River, and a flag station on the Canadian Pacific Railway on the Nelson-Roseland Branch, may become the new home of the Sons of Freedom, if efforts now being put forward by the province meet with success.

German Steel For Russia

The German Iron and Steel Trust has agreed to deliver to Russia 80,000 tons of bar iron, the same amount of sheet iron and 40,000 tons of steel products in the next two months at untraded prices. The deal was arranged in Berlin by the Russian trade delegation which recently came from Moscow.

Young Mattison Has a Loud-Speaker

The German Iron and Steel Trust has agreed to deliver to Russia 80,000 tons of bar iron, the same amount of sheet iron and 40,000 tons of steel products in the next two months at untraded prices. The deal was arranged in Berlin by the Russian trade delegation which recently came from Moscow.

Maid (returning): "There is only the radio there. It is talking to it."

Sea Safer Than Land

Statistics Show Sea Made Safer, But Peril To Life On Land Is Increasing

BABY'S OWN SOAP

It's Best for You and Baby too

Recipes For This Week

(By Betty Barclay)

FOUR MEN'S PUDDING FRAPPE

- 1/4 cup rice.
- 1/4 cup milk.
- 1/4 cup sugar.
- 1/4 teaspoon salt.
- 1/4 teaspoon vanilla.
- 1 cup whipped cream.
- 1 cup candied ginger.

Wash the rice well, then mix it with the milk, sugar and salt, pour into a baking pan and place in a moderate oven, 300 degrees, to bake for two to three hours. Stir frequently for the first hour, then take out the vanilla and finish baking without stirring. Chill thoroughly, skim off the crust and fold in the ginger cut in tiny pieces and half the whipped cream. Arrange in sherbet glasses, garnish, topping each with a rosette of whipped cream and a bit of ginger. Chill almost to freezing before serving.

DINNER PUNCH

(Serves 4-6)

- Juice of 2 lemons.
- 1/2 cup of grapefruit.
- 2 cups water.
- Sugar or honey to taste.

Mix thoroughly. For Variation: Add to the above mixture 1 cup of the juice of another fruit, such as grape juice, raspberry juice, loganberry juice, pineapple juice, elder or the juice from any canned fruit.

Or add 1 cup of a puree made from peaches, pears, apricots, raspberries or berries through a ricer or coarse sieve.

A Popular Service

Growing Demand Is Shown For Government Graded Beef.

There could be no better illustration of the rapidly growing popularity of the Beef Grading Service of the Dominion Department of Agriculture than the increase of over 70 per cent in the volume of beef graded for sale throughout Canada between April and May of this year. Only a little over a year in operation the Beef Grading Service graded and branded a total of 1,199,357 pounds of "red" and "blue" brand beef in April last. In May this total reached 1,983,022 pounds. Of the May total 1,333,247 pounds graded "good" for branding "blue" and 649,775 pounds "choice" for the "red" brand. Figures by provinces show a rapidly increasing demand for government graded beef, particularly in Ontario and Quebec.

Keep Free From Fat—Feel Younger

Unlike most salts, Kruschen's is simply a laxative—it's that all you want. It's the "Peril Of Sea Salt," of the danger of the sea. Ships have become bigger and safer, ships wreckless and far between, but life at sea is quite rare. Yet while the sea is being made safe, and the peril of life on land has been rising from year to year, people remain as unconcerned as one movement as the other. They still regard the sea as a place of peril.

Interesting statistics, bearing on this point, appear in the Shipping World. In 1905-1909, the average annual total losses of British ships were approximately 450 ships or about 175,000 tons, and the average loss of life in British ships was over 1,000 persons per annum. In 1924-1928, the corresponding figures were 170 ships or about 85,000 tons, and the loss of life about 220 persons per annum.

The story of these statistics of course is the work of wireless, bigger and better ships, of better weather reports, of a general world movement for promoting safety at sea. On the other hand, while we have been doing these things, cutting down on the toll of the deep, we have been neglecting the health of the extraordinary ingenuity to make an existence on land a hazard. Yet nobody seems to be overly exercised about the latter.—New York World.

Aid For Blind Needed

Duty Rests On Government Opinion Of F. E. Layton

Not from any charitable organization or the combined facilities of all the blind in the country, but from the state, must come aid for the sightless members of the community, declared F. E. Layton, president and founder of the Canadian Federation of the Blind.

"We have been told that now is the time to take governments for granted. Why not?" Mr. Layton asked. He addressed the fourth conference of the federation at Montreal, welcoming delegates from all sections of Canada, from Halifax to Vancouver.

Young Trees Distributed

From 1905 to 1930 over 3,000,000 young trees have been sent free to over 100,000 applicants living in the Prairie Provinces—Manitoba, Saskatchewan and Alberta—by the Canadian Government Forest Service of the Department of the Interior. Last year in operation more than 6,000,000 tree seedlings and cuttings were shipped.

That the sun's surface is hotter at the poles than at the equator is a view recently advanced by Prof. Albert Einstein.

Natives of French Morocco prefer movies of the Wild West type.

A modern ocean liner costs about \$20,000,000.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving ultra-violet rays, which do not penetrate ordinary glass.

CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE

USE WINDOLITE IN BROODER HOUSES LAYING PENS DAIRY BARN SUNROOMS ETC.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

Distributors: CHANTLER & CHANTLER LIMITED
51 Wellington St. W. TORONTO, ONT.

PATHFINDER

Compare Your Old Tires with These

COMPARE their smooth worn tread with the safe, skid-resisting tread of the PATHFINDER. Test their weakened carcass against the sturdy Superwist carcass of the Pathfinder. You'll see why you should have Pathfinder Treads for safety. And the saving in their price will convince you.

Come in and price your size. You'll be surprised.

Johnson's Garage

Pathfinder Tires are Goodyear quality.

Excel School Report

The following report gives the average obtained by each pupil for the year ending June 1931.

Grade X—Thelma Gullekson 77, Ina Anderson 72, Lois Stephenson 67.

Grade IX—Paul Audibert 66, Jerome Gullekson 50.

Grade VIII—Elsie Gilbertson 82, Edna Bakken 78, Kenneth Gullekson 74, Howard Church 68.

Grade VII—Shirley Stephenson 69, Bernard Gullekson 58, Audrey Gullekson 47.

Grade VI—Charley Wetherall 86, Clifford Gullekson 70, Shirley Gullekson 67, Lorette Audibert 64, Leonard Church 50.

Grade IV—Jack Audibert 74, Albert Audibert 70.

Grade III—Gwenyth Anderson 77, Harry MacMillan 74, Cecile Audibert 71.

Grade II—Ruth Gilbertson 78, Alfred Bakken 76, Edna Wetherall 73, Stuart Church 67.

Grade I—Margaret MacMillan 75, Mabel Gilbertson 75, Albert Church 70.

Angelyne M. Hendel, Teacher.

STORES CLOSE AT 1 P.M.
Wednesdays during July

About Town and Country

The Chinook and District annual summer fair and exhibition has been cancelled for this year.

Mr. Nelson Reems and family left last Monday on a vacation trip to Calgary and Banff.

Mr. and Mrs. Howard Munroe left last Sunday for Calgary and points west, on a vacation trip.

Constable Green returned to Oyen from Sylvan Lake last Monday.

Mr. and Mrs. W. J. Byler, Mr. and Mrs. B. F. Van Horne, Mr. and Mrs. Chas. McMurray and Mr. and Mrs. J. C. Ihde and their families spent Sunday at Gooseberry Lake.

Mr. and Mrs. Charles Stewart and son Jimmy and Miss Olive Purtridge left this morning for Calgary, where they will spend a few days.

Miss Dorothy Love arrived in Oyen last Sunday from Saskatoon to spend a vacation at her home.

Subscribe to the Oyen News!

Maynard Regan, who has been spending a holiday, visiting at the home of his parents, returned to Calgary last Wednesday.

Jack and Jim Horne of Rosemont are visitors at the home of Mr. and Mrs. G. Langmuir.

The following girls left last Monday to attend the C.G.I.T. camp at Gooseberry Lake: Jean and Beth Whitlock, June Walker, Nettie Kornichenko, Ethel Rothwell, Irma Rehli, Lilimay McMurray, Lois Stephenson, Shirley Stephenson, Velva McDonald, Ina Anderson, Iva Byler, Esther Mahaffey, Ethel Mahaffey, Wilda Caswell, Hannah Eskine, Dorothy Brown and Gladys Gibson. The girls were accompanied by Miss Mildred Cates. Mr. W. D. Morrell drove the party to the lake in his cabin truck.

Mr. C. P. Snyder, Mrs. I. Westfall and Mrs. Ray left yesterday by car for Ponoka to visit Mrs. Snyder's sister.

Wanted—About 640 rods of used four point barbed wire. Apply: Box 156, Oyen, Alta.

Oyen School Promotion List

(Continued from page 1.)

Miller 77.3, Melbourne Bradford 70.7, Jacqueline Kelly 66.8, Virginia Robinson 69.4, Carl Peterson 64.6, Earl McDonald 62.2, Harold Austen 61.4, recommended; Evelyn Johnson 60.5, Gladys Gibson 59.3, recommended.

G. P. Freebury, Teacher.

High School, Grade IX

Passed in 7 units, (7 units taken), Beryl Scott 81, Allen Scott 81, Fred Hatch 77, Hannah Eskine 76, Jennie Love 63. Passed in 6 units, (6 units taken), Tom Love 67.

Passed in 3 units, (6 units taken), June Walker 61.

E. G. Evans, Principal.

Promoted to Grade V

Howard Todd 85, Doris Jackson 81, Helen Stoner 73, George Meyers 66, Sydney Jones 63, Harold Newman 47, (on trial).

Promoted to Grade VI

Grace Hoover 80, Winnie Jones 73, Sydney Jackson 67.

Promoted to Grade VII

Edith Todd 72, Walter Jackson 68, Marguerite Newman 67.

Promoted to Grade IX

Doris Hoover 81.9, Edna Hoover 79, Edith Jackson 77, Shirley Stoner 71.2, Herbert Todd 61.1.

Evelyn Clark, Teacher.

Excel News

(Continued from page 1.)

Excel Ladies Aid held their July meeting last Thursday at the home of Mrs. E. H. Church. There was a large attendance. The date for the Sunday school picnic was set, July 22, with the following committee in charge: Mrs. C. Gullekson, Mrs. S. B. Gullekson and Mr. A. Wetherall. The aid was specially favored in having present Miss Mildred Cates, B.A., and her mother Mrs. R. Cates. Mrs. S. A. Miller, Mrs. W. Osterander, Mrs. M. G. Whitlock and Mrs. Keever, were also present.

Miss Cates gave a most interesting description of her year's training in Toronto and showed many photographs of her fellow students, the staff and buildings. She also read many interesting items from the Year Book of the graduating class. Many "good wishes" and a very hearty vote of thanks were tendered Miss Cates at the conclusion of her address. The meeting closed by singing "Blest Be the Tie That Binds". A social hour with refreshment followed.

Here and There

Feeding tobacco to sheep is the latest device to check internal parasites. The tobacco is given with salt in the proportion of ten pounds of salt to one of crushed tobacco leaf.

Latest available estimates place Canada's forest resources at 234,204 million cubic feet of standing timber, capable of yielding 424,687 million feet board measure of sawn lumber and 1,121,093 thousand cords of pulpwood, ties, poles and other smaller materials.

Western Canadians are showing resolution coupled with a high degree of industry, was the comment made by Grant Hall, vice-president, Canadian Pacific Railway, on his return from a recent tour of the company's western lines.

Trail riding in the Canadian Rockies has made a strong appeal to Lord Duncannon, son of His Excellency the Governor-General, who with the Hon. Arthur Fox-Somby and Major Doham have been staying at the Banff Springs Hotel.

will conduct Services

SUNDAY, JULY 12
as follows:

HUDSON HEIGHTS 11.00 a.m.
GLENADA 3.00 p.m.
OYEN 7.30 p.m.

"Buyers' Week," which has been a great success in the past, will be held for the fourth time in Montreal commencing August 10 next. At the last one in February upwards of 1,500 buyers came to Montreal and purchased in round figures \$650,000 worth of Canadian-made goods.

A man catching a fish is not news unless the fish is an outsize, but a fish catching a man rates a big type head. This happened at Lake Minnewanka, near Banff, recently when an angler was pulled off the pier into the lake by the sudden strike of a monster trout. Constable James of Calgary put off in a boat and landed both fish and fisherman.
